

Lighthouse Bonsai Society

A Note from the President

It feels cold but Spring is close. I am moving plants around trying to capitalize on every hour of sunlight I can get. Soon I will be moving them onto the shade. I am starting to fertilize and plan for re-potting. I re-potted five trees this weekend. One had to go in that other ones pot so that one had to go onto new pot to make room for the one I really wanted. Luckily they were small. We had a great visit from Owen Reich in our visiting artists tour. If you attended you know what I am talking about. If you didn't attend you are missing a big benefit of club membership. Reconsider your priorities and join us for Jim Van Landingham our next visiting artist. See you Saturday! Bob

Terry Wolfe was our January presenter. He shared some of his beautiful trees and his refreshing, easy style. His Bonsai work has encompassed many species. He's been doing his thing Using wire, weights, jute and anything he can think of to get the tree where he wants it to go. Thanks Terry for sharing with us!

Bring your OWN tree!!!

On Saturday experienced artists please bring the tree you're working on and share your vision for future development. Members new to the art of Bonsai please bring in your tree and get some help from the experienced artists.
